CITY COUNCIL

Considers This Year's Estimates

The Mayor and all the alder-
men were present at the regular
Council meeting on Monday even-
ing.

Amongst the correspondence
dealt with were letters of minor
importance from the Canadian
Road Machinery Co., in reference
to a scavenger wagon; the Can-
adian Fairbanks Co., acknowl-
edging receipt of the last pay-
ment on the power plant; the
Dominion Securities Corporation,
with reference to some slight
errors in dating debentures; and
an application from Mr. Chas.
Clarke, C. P. R. agent, for water
connections to the station, which
was referred to the Fire & Water
Committee. The other letters
were filed.

The Mayor suggested that in
future when connections are put
in across streets two-inch pipe
should be used, which would
serve several users and avoid
tapping the main for each new
applicant.

The police report for April
was read and caused some dis-
cussion in reference to several
cases that have been in court
during the past week, particu-
larly in regard to the alleged theft
of a bicycle, in which the charge
was dismissed. The opinion of
the Council seemed to be that
there was a miscarriage of just-
ice in the latter case, but the
matter was discussed without
any intention of taking further
action. Eleven arrests were
made during the month.

Mr. H. H. Millie waited on the
Council to ask for an extension
of his telephone franchise for a
term of years. He said he had
not made any money as yet, as
the system required constant
extension, and he should have a
chance to realize something out
of his investment. He would
like power to be given him in his
new franchise to raise the month-
ly rate 50 cents, this amount to
be deducted if the account was
paid within ten days from date
of rendering. This would facili-
tate collections, and would not
increase the rate to those who
paid promptly. He was willing
to pay for the necessary ad-
vertising and expenses of voting.

Ald. Elliott wanted some as-
surance that the service would
be improved, and Mr. Millie in
reply said that he was installing
new switchboards this week and
that further improvements are
being added.

The matter will be dealt with
in the near future.

The following accounts were
referred to the Finance Commit-
tee and ordered to be paid, if
found correct:

A. M. Skae, work on water- works	5.00
H. H. Millie, phone and tele- grams	21.75
C. Nicoll, work on waterworks	8.75
H. Lamond, do.	10.00
J. Chaplin, planting 203 trees at 16c	32.50
J. Chaplin, cleaning weeds off Spedding lots	5.00
Canadian Fairbanks Co., elec- trical supplies	234.59

In reference to the account for
clearing weeds, the Mayor said
the amount would be paid by
Mr. Joe Fraser, who had ob-
tained use of the ground for
keeping it clean.

Ald. Elliott reported for the
committee on the proposed water-
ing trough that he had seen Mr.
Haug, but could not get a definite
estimate until the cost of patterns
was ascertained. A plain trough
would cost about \$5.00. As to
location, people to whom he had
spoken seemed generally to pre-
fer a site on Bernard Ave. either
on the block from Ellis St. to
Pendozi St. or from the latter to
Water St.

CONTROL OF IRRIGATION
By Municipalities

When Messrs. Martin and
Blackwood appeared before the
Council on April 26th and asked
to be relieved of the unpleasant
duties of Water Commissioners,
the reply given them was that
the Council had no jurisdiction
in the matter, and the same
statement was made by Ald. Ball
at the water meeting held on
April 22nd, at which the com-
missioners were appointed. He
said that the clauses bearing on
municipal control of irrigation
had been struck out of the new
Water Act. This statement now
seems to have been made in
error. Mr. D. W. Sutherland,
when at the Coast, saw the Hon.
Mr. Fulton, Chief Commissioner
of Lands, and discovered that
provision has been made in the
Act for control of irrigation
water by municipalities. He
brought back a copy of the Act
with him, which he has kindly
lent us. The clauses referring
to municipal control are as fol-
lows:

"290. A licence to use water
for irrigation purposes and the
works connected and used with
such licence may, when the place
where the water is used is
situated wholly within the bound-
aries of any municipality, be
acquired by such municipality
with the consent of the Licensee
for such consideration and upon
such terms as may be mutually
agreed upon.

"291. Such municipality as
aforesaid may, in arranging the
terms of purchase with the Licen-
see, assume any obligations of
the Licensee with respect to the
distribution of water.

"292. Before acquiring any
rights and assuming any obli-
gations under the last two pre-
ceding sections, the municipality
shall submit a by-law to the vot-
ers of the municipality as in the
case of a By-law to authorise the
borrowing of money.

"293. After the passing of
the by-law authorising the pur-
chase of the water rights herein-
before referred to, and the com-
pletion of the purchase, the
municipality shall fulfil all the
obligations whatsoever of the
Licensee whose rights have been
purchased, control and regulate
the distribution of the water and
subject to the Rules, fix the price
thereof.

"294. Whenever before the
passing of this Act a record has
been issued for the use of water
limited to particular heredita-
ments which have afterwards
been subdivided and portions
thereof alienated, and after such
alienation a record has been ob-
tained authorising the storing of
the water, the use whereof is
granted by the original record,
the holder of the record shall not
as to such stored water be in
anywise limited in its distribu-
tion.

"295. Any Licensee may, by
notice in writing to the Water
Commissioner, abandon the
whole or any part capable of
separation of the rights, powers
and privileges acquired: Pro-
vided, however, that where any
hereditaments to which a licence
to take and use water is appor-
tioned are mortgaged or
charged, no abandonment of such
licence and rights shall be effec-
tive without the consent of the
mortgagee or chargee.

"296. In the book kept for the
purposes of recording licences
and opposite to, across or in the
margin where such original en-
try is made, the Water Commis-
sioner shall record the fact of
such abandonment for refer-
ence."

While the right is thus evi-
dently bestowed upon munici-
palities of taking over control of

W. B. M. CALDER, Prop.

irrigation within their corporate
limits, the clauses are far too
indefinite, and no provision is
made for expropriation. Clause
290 distinctly states "with the
consent of the Licensee," which
means that the owner of one lone
50 foot lot may cause a great deal
of trouble by refusing his consent
to surrender his right to the
municipality in the manner re-
quired by Sec. 295.

The clauses relating to munici-
pal control seem to have been
framed without careful investi-
gation of the circumstances actu-
ally existing in such cities as
Kelowna, where the original
water record covering the town-
site has been subdivided into
minute fractions by the survey
of the land into lots ranging from
about one-sixth of an acre up.
Strangely enough, subdivision
of a water record is referred to
in Section 294, and it would have
been a simple matter to have
made provisions for the proced-
ure to be followed for transfer
of water rights to a municipal
corporation, but Section 295 re-
quires that notice of intention to
abandon rights must be given by
the Licensee, which would ex-
tend to all his devisees in the per-
son of all owners of subdivisions,
—in writing to the Water Com-
missioner. This raises the diffi-
culty of getting the consent of
absentee owners, and it would
be a herculean task to face, in-
volving unlimited correspond-
ence and waste of time, and may
be dismissed as impracticable.

The City Council should lose
no time in pressing upon the
government the urgency of amend-
ing the clauses referring to munici-
pal control, so that it would be
possible to effect the transfer of
rights without endless delay and
expense; and the simplest and
fairest provision that can be made
is to carry out the surrender of
rights by a vote of those inter-
ested, a three-fifths majority to
carry and voting to be on the
basis of acreage involved. Only
in some such manner can the
difficulties be got over of dealing
with absentees and the few un-
reasonable objectors to be found
in all communities, and for the
present season it is evident the
Council can do nothing to relieve
the situation.

Under these circumstances, it is
the duty of all users of irrigation
water to loyally support the Water
Commissioners by subscribing to the
expenses of proper water distribu-
tion. The Commissioners have a
thankless task, which only a sense
of public duty induces them to car-
ry on, and for that reason they
deserve to be treated with all the
more consideration. Next year, we
hope things will be different under
an amended Act, and that those who
have taken advantage of the help-
lessness of the Commissioners to
enforce their authority will find
themselves squirming under the firm
hand of municipal rule.

changes of advertisements must be handed
to the printer by Monday evening to ensure
publication in the current issue.

THURSDAY, MAY 13th, 1909.

BOARD OF TRADE

Monthly Meeting

The monthly meeting of the Board
of Trade was held last night and
brought out a small attendance. Af-
ter waiting for three-quarters of an
hour a bare quorum of nine was ob-
tained, and two more members drag-
gled in a few minutes later. A mem-
ber of the Board who was one of
the first to arrive suggested we
should preach an editorial sermon
on unpunctuality, but we frankly
confess to being tired of dining the
evil of this minor sin into the ears
of an unheeding public. If people
would realize that unpunctuality is
selfishness pure and simple, as it
means that those who are punctual
have their time wasted and are
made to suffer in trial of temper
on behalf of their unpunctual bre-
thren, perhaps they would give a
little more heed to the fact that
8 p.m. means that hour and not
8.45.

President Pitcairn was in the
chair.

A quantity of correspondence was
read and dealt with as follows:

From Clement & Co., Montreal, re-
ferring to improvement of trade re-
lations between Canada and France.
Filed.

From Vernon Board of Trade,
thanking Kelowna Board for sup-
porting the proposal to obtain a
Land Registry Office for Vernon,
and suggesting that Kelowna send
a delegate, if possible, to the Coast
along with delegates from Vernon,
to press the matter on the Govern-
ment. After a statement from Mr.
R. B. Kerr, it was decided to reply
that the Board did not see their
way to send a delegate, but express-
ing their sympathy with Vernon's
efforts.

Letters from the Noble Advertis-
ing Agency, Vancouver, regarding
preparation and publication of ad-
vertising booklets; from Heaton's
Agency, Toronto, in reference to si-
milar matter, and from Mr. E. A.
Orchard, Vernon, with regard to his
"Guide to the Okanagan," were re-
ferred, on motion by Messrs. Leckie
and McTavish, to the Publicity Com-
mittee, and accounts from Mr. G. H.
E. Hudson, photos, for pamphlet, \$5;
and from Orchard City Record, sev-
en half-tone cuts for pamphlet,
\$27.50, were also referred to that
Committee.

Accounts of Mr. J. Conlin, for bal-
ance due on six boxes of apples for
Spokane Show, \$7; and Kelowna
Reading-Room, rent of room, \$3,
were ordered to be paid.

A letter from F. R. Stewart &
Co., Vancouver, asking the Board
to put them in communication with
persons having good apples for sale
suitable for exhibition at the A. Y.
P. Exposition at Spokane, was filed,
no good apples being now available
so late in the season.

The President submitted a tele-
gram received that day by Mr. T.
W. Stirling, from Senator Bostock,
asking him if he would recommend
Mr. DeHart as a suitable person to
take charge of a Provincial exhibit
of fruit on behalf of the Dominion
Government, to be shown at the
A. Y. P.; or, failing Mr. DeHart, to
recommend some other suitable per-
son. Mr. Pitcairn said Mr. Stirling
would like an expression of opinion
from the Board, and, after some dis-
cussion, it was moved by Mr. R. B.
Kerr, seconded by Mr. Leckie, and
carried: That the Board advise
Mr. Stirling that they would recom-

mend Mr. DeHart as the most suit-
able person.

Should Mr. DeHart be unable to
go, the following gentlemen were
suggested from whom to make a
choice: Messrs. H. V. Chaplin, G. R.
Boyer, B. McDonald, T. G. Speer
and F. A. Taylor.

The Transportation Committee
had nothing to report.

The Publicity Committee, through
Mr. G. C. Rose, reported the pam-
phlet was in the hands of the prin-
ter and should be published in a
week or two. In regard to adver-
tising, Mr. Rose said the committee
had ascertained the rate for such
agicultural papers of half-million
circulation as the "Farm Journal"
Philadelphia, was \$3.50 per agate
line per month, equal at 14 lines
per inch to \$49.00 per inch per
month, and the Committee did not
feel that the funds at their disposal
would enable them to use sufficient
space at that rate to be of any
value to Kelowna. He asked for
instructions as to placing a framed
group of photographs in the Alex-
andra Hotel, Winnipeg, and the
Committee was instructed to endeav-
our to place a frame there, the
members considering that a frame
at Sicanous would not be of much
advantage.

Mr. Kerr thought some advertis-
ing should be done in Vernon, as
newcomers were reluctant to go
further than the train brought
them and were apt to think there
was nothing south of Vernon. So
he thought a group should be dis-
played somewhere in Vernon, per-
haps in the Kalamalka Hotel.

The suggestion was not acted on.
At the invitation of the President,
Mr. E. R. Bailey gave a brief out-
line of the plan of the new C. P. R.
trackage arrangements, as covered
by the agreement with the City.

Mr. P. DuMoulin suggested that all
business men not now members of
the Board should be approached and
invited to join, and something will
be done in this direction.

Mr. G. C. Rose asked the members
whether it would not be advisable
to drop the regular monthly meet-
ings during the summer months, as
had been done in former years, ow-
ing to the difficulty of obtaining a
quorum at this time of the year,
and instead to hold the statutory
quarterly meeting only as a regu-
lar meeting, other meetings to be
held at the call of the Executive
Council. The suggestion met with
approval, and a motion to that ef-
fect, moved by Mr. Rose, and seconded
by Mr. Buckland, was carried
unanimously.

The meeting then adjourned.

LOCAL NEWS

Mr. J. Pyman left for England on
Friday.

Mr. T. Hererson paid a visit to
Vernon on Friday.

Mr. and Mrs. Donald Fraser left
this morning for Moosejaw.

Mr. Geo. Meikle left on Saturday
for a visit to Toronto.

Mr. N. L. Eastman returned on
Monday from a visit to Vernon.

Provincial Constable Tooth took a
prisoner to Kamloops on Friday.

Messrs. J. W. Jones and J. A. Big-
ger left on Monday to attend the
provincial Methodist Conference at
New Westminster, in session this
week.

Any one wishing to donate candy
or cake for the Hospital Bazaar,
on Wednesday, May 19th, will kin-
dly send it to Rayner's old hall
on that date.—Con.

Dr. W. C. Emmons, formerly of
Winnipeg, and now of Vancouver,
spent a day or two here last week
with his wife and family inspecting
the fruit lands of the valley with
a view to investment.

Mr. Bogert, of Keremeos, was in
town for a few days last week in-
vestigating the feasibility of erect-
ing a factory here for the manufac-
ture of wooden irrigation pipe. He
was well pleased with the prospects
for the industry, and will return
later and very probably install a
plant. He is a man of long experi-
ence in the manufacture of pipe both
bored from the solid log and stave,
and is satisfied that the lumber ob-
tainable here is of sufficiently good
quality to meet his requirements.
Mr. Bogert has just finished some
highly successful work on the ir-
rigation system of the Keremeos Land
Co., some eight miles in length.

The Farmers' Exchange intend to
erect a large and substantial build-
ing this summer on a lot recently
acquired by them at the new C. P.
R. freight station. The building will
cover the entire lot, and will meas-
ure 66 by 132 feet. The walls will
be of concrete, and there will be a
main floor and a basement, the lat-
ter to be used for winter storage
of roots, while there will be a cool-
ing room, parking room, warehouse
and office on the main floor, from
which cars on the adjacent switch
can readily be loaded. The building
will be frost-proof throughout, and
it is anticipated to prove a most
valuable factor in marketing the
produce of the valley by enabling the
Exchange to hold fruit and vege-
tables, if necessary, until prices
are satisfactory. The present build-
ing of the Exchange will be used
for express business in summer and
as a grain warehouse in winter.

Mr. J. E. Wheeler returned yester-
day from a visit to Saskatche-
wan points.

Mrs. A. S. Cox went to New West-
minster on Monday to attend the
W. C. T. U. convention.

The new fruit packing-house now
being built on the lower K. L. O.
bench for Stirling & Pitcairn has
reached completion, and will be re-
ady for this season's operations.

On Friday, the register of the
Lake View Hotel showed visitors re-
gistering from such widely separa-
ted points as Shanghai, China; Los
Angeles, Cal.; and Yokohama, Ja-
pan.

Mr. F. Shute, assistant inspector
of the Royal Bank, Vancouver, ar-
rived on Friday, accompanied by
Mrs. Shute, to fill Mr. C. B. Dan-
iel's place, while the latter is ab-
sent on leave.

Mr. and Mrs. Henry Martin, of
Victoria, were visitors to town last
week. Mr. Martin owns real estate
interests adjoining the lands of the
Belgo-Canadian Fruit Lands Co., and
was engaged in inspecting his prop-
erties.

Mr. J. H. Teesdale, of Shanghai,
China, is spending a few days in the
valley looking over a suitable or-
chard location for his brother, who
is at present in the West Indies,
but will shortly take up his re-
sidence here, if a desirable property
is chosen.

Mr. Geo. Whelan has bought all
of Mr. H. S. Rose's portion of the
Rose-McLennan block on Pendola
St. South, amounting to twenty-two
lots, and has also bought a lot on
the same property from Mr. A. Mc-
Lennan. The purchases were made
through Hewetson & Mantle.

Mr. C. F. Robertson, formerly of
Trinidad, West Indies, who had
been taking care of Mr. J. H. Bail-
ie's ranch during the absence of
the latter in the Old Country, left
on Saturday for his former home,
with his wife and child, having re-
ceived an appointment on a West
Indian plantation.

Mr. G. S. McKenzie will take over
the management of the grocery de-
partment of the T. Lawson Co., Ke-
lowna. George will be greatly mis-
sed by a very large circle of friends
because of his many excellent so-
cial qualities. Lawson & Co. are
to be congratulated on the acqui-
sition of a thoroughly capable man
in his chosen line of business.—Ver-
non Okanagan.

The local supply of potatoes is
completely exhausted, and the Farm-
ers' Exchange is obtaining a car
of Ontario potatoes through a Win-
nipeg wholesale house to fill out
remaining orders for seed and for
domestic use. The extraordinarily
severe weather of last January
caught farmers throughout all parts
of the province, and many tons of
potatoes were frozen in the pits
from insufficient covering. Potatoes
will probably reach \$55 or \$60 per
ton before the new crop comes in,
and such prices are exasperatingly
tempting to those who sold at \$13
or so last year.

Miscellaneous News Notes

Reports received in Winnipeg on
May 11 indicate that seed time is
over in the wheat belt.

The steamer Shores, together with
passengers and crew numbering 21,
went down in Lake Superior early
this week.

The steamship Lake Champlain,
Liverpool to Montreal, with 1,000
passengers, pit into St. John's, New-
foundland, with a big hole stove in
her bow and leaking badly, due to
collision with heavy ice.

The Mauretania has again broken
all records for the eastward voyage
across the Atlantic, doing the jour-
ney from Ambrose lightship to
Dum's rock in four days, eighteen
hours and eleven minutes. Her av-
erage speed for the entire distance
was 25.70 knots an hour, while for
three days the vessel maintained an
hourly speed of 26.32 knots.

A. J. HENDERSON

NEWS OF THE WORLD

The price of liquor licenses in Bel- lington, Wash., is now \$1,000.

Roosevelt, who is hunting big game in Africa, already has three lions and a lioness to his credit.

The German patents of the Wright aeroplane have been purchased by the German government.

In celebration of the tercentenary of the landing of the Pilgrim fathers and the founding of New England the city of Boston has decided to hold a world's fair in 1920. A movement to that end had its inception last week.

The great profusion of public holidays is given as one reason for retarding the progress of Russia. A writer states that there are at present 91 public holidays, including Sundays. Many of the holidays fall in the busy season for working in the fields.

At a meeting held in Stuttgart, Germany, last week, a representative of Count Zeppelin declared that the company formed in connection with the Zeppelin Airship Construction Company had undertaken to establish a regular line of airship from Lucerne to the North of Germany.

While every portion of a large audience in the big arena at Seattle was leaning forward, straining every muscle to witness the finish of a wildly exciting ten-mile Marathon race on May 6, the railing gave way, plunging 300 people headlong to the floor below, and resulting in injuries to more than fifty. Although no deaths have occurred, some of the victims are seriously injured.

In order to redeem a promise made at the commencement of his term of office as mayor of Halifax, N.S.W., Australia, to pay \$1 to the parents or guardians of the first hundred children whose births were registered in 1908, and who were alive at the end of the twelve months, W. Wallace had to pay out \$91 on Feb. 11, the day fixed for the redemption.

RIFLE ASSOCIATION

Begins Practice

The first practice this season of the Rifle Association was held on Thursday last in disagreeable weather. Prior to commencement of firing several heavy showers fell of sleety rain, but fortunately it cleared off while shooting was in progress. The light was trying, due to alternate cloud and brightness, and at the longer ranges the wind sprang up and bothered the marksmen somewhat.

There was a good attendance of members, and interest was taken in the performance of two new pattern Ross rifles, which did well enough, considering they were in the hands of men ranked only as second class shots, to sustain in a measure the reputation gained by the same model at Bisley last year. It is understood several other members have ordered rifles for their own use, and there should be enough Lee-Enfield and Ross match rifles to equip a team for the Vernon meeting.

For the first practice of the season, the scores were encouraging, and if interest is sustained, the Kelowna Association should turn out some good shots by fall. The detailed scores were—

THE WORLD OF SPORT

John D. Marsh, of Winnipeg, won the Canadian Marathon at Hamilton's Island, Toronto, in the good time of 2:39:47, which is more than a minute better than St. Yves' time in the last New York Marathon.

A four-oar shell race between crews representing the University of Washington, the James Bay Rowing Club of Victoria, and the Vancouver Rowing Club, will take place on Lake Washington, Seattle, on May 29, the day of the big inter-collegiate boat race between Washington, California and Stanford.

Alfred Shrubbs, the veteran English distance runner, scored over Tom Longboat in their fifteen mile race at Montreal on the afternoon of May 8, beating the Indian by a lap all but twenty yards, after an exciting struggle. The Indian gave the Englishman an argument all the way. Shrubbs' time for the fifteen miles was 1:27:57, and Longboat covered the distance in 1:28:40.

British riflemen in the international small-bore match held at Washington, D.C., last week, demonstrated their superiority over the Americans by securing an overwhelming victory. The match was a friendly one in gallery ranges in the respective countries. The British made the grand total of 14,583 points out of a possible 15,000, or an average of 291 per man. The scores of the American team were 14,179. The high score man of the American team made 298 points out of a possible 300.

Great Damage by Bush Fires

Hundreds of thousands of dollars in property destroyed, and scores of ranchers forced to flee for their lives and leave their buildings and contents to the devouring element, are the results of disastrous bush fires that swept the country from Notoch Hill, through the thriving settlement of Salmon Arm and on to Sicamous, and from four miles to the north of Enderby to Mara and as far east as Three Valley.

Amongst the losses are three sawmills together with stocks of seasoned lumber and winter cuts of logs, all of which were consumed by the wall of flame that swept over the country.

The mill of the Columbia River Lumber Co. at Carlin Siding was wiped out, with a loss of \$75,000; the Kenagham mill on the Salmon River near Salmon Arm, valued at \$35,000; and the mill of the Rothery Lumber Co., at Mara.

In the vicinity of Salmon Arm three large bush fires had been burning for several days, and a terrific gale which started on Sunday night last week, and continued with unabated fury all day Monday, soon brought them into contact with one another. Barns and houses fell a prey to the fire and many head of cattle were lost, while many settlers had to leave everything and hasten to save their lives.

Near the town of Salmon Arm a fierce fire raged, and Brayden & Johnston's large sawmill had a narrow escape, but their staff of men with the assistance of the mill pumping plant, succeeded in saving everything. Four barns were razed to the ground in the vicinity of the mill, together with considerable hay and feed and implements. Several miles of fences were destroyed. The townspeople turned out in force and succeeded in keeping the fire from entering town, and although at one time it looked as if part of it would be wiped out, not a single building caught.

There is quite a big settlement in the neighbourhood of the Brayden & Johnston mill, with a number of fine residences, and that none of these were destroyed is a matter of thankfulness.

In the northern part of the Okanagan the fire started about four miles north of Enderby, and spread north past Mara on toward the P. R. main line, and running with incredible rapidity, within six hours nearly fifteen miles both sides of the Shuswap River were in flames and impassable, the fire jumping the stream no less than eight times. Every ranch within a mile of the river suffered some loss, many being wiped out entirely.

The loss occasioned by this conflagration includes ten residences, practically every barn, shed and outbuilding in the burned area, as well as many miles of fencing.

A schoolmaster was one day greatly annoyed by not getting satisfactory answers to the questions he put to one of the schoolboys. At last he called the dunce to the front and, handing him some money, said, "Away with you, go and buy some brains."

The master felt rather small when the boy turned round with the query, "And will I tell the store-keeper they're for you?"

NEWS OF THE OLD COUNTRY

The Institution of Civil Engineers, London, has conferred its first gold medal on the Wright Brothers, of airship fame.

A despatch to the London Daily Mail from Calcutta asserts that the British Government is seriously considering the question of placing the Viceroyalty of India in the hands of a Prince of the Blood Royal, and the suggestion is made that one of the younger sons of the Prince of Wales be trained for the post.

It is understood in London that the Imperial Government has despatched telegrams to the Overseas governments for a subsidiary conference on imperial defence early in July. The Canadian resolution and Australian and New Zealand offers will naturally form the basis of the discussion, but it is not intended to propose a definite programme. The proceedings will probably be in private.

Once again has Joe Martin met a political defeat, for on May 5 the Unionists won the Stratford-on-Avon bye-election. Mr. P. S. Foster polled 5974 votes, Mr. Joseph Martin, Liberal, 2747; while Capt. Kincaid Smith, Independent Liberal and former member, polled 476.

The result of this bye-election must be taken as an indication of the feeling of the country towards the present government, as the contest was fought out mainly on the two questions of tariff reform and naval problems.

The Cunard Steamship Company's report has been issued. The accounts show that the profits for the year, including £109,882 brought forward from 1907, amount to £295,036 15s. 5d. After debiting income tax, interest, depreciation of ships and wharves, and transferring £6,494 17s. 6d. to the insurance fund, there remains a balance of £3,582 6s. 8d., which the company carry forward to credit of profit and loss account for 1909. This is in direct contrast to the enormous losses sustained by the big German steamship lines.

Hitherto backward in the science of aviation, Great Britain is planning to undertake on a large scale the study of aeronautics. The Isle of Sheppey, Kent, in view of its advantageous location, has been named as the ground for the experiments which the English Aero Club is about to start, and already shops have been constructed and workmen are busy putting together machines that are on the ground. The English War Office is building shops for the construction of experimental ships on Salisbury Plain, and a Royal Engineer will witness the trials at Sheppey. It is stated that if the Sheppey experiments terminate successfully, orders for 300 aeroplanes from the British Government and from private individuals will be forthcoming.

Salmon Arm Investments SPECIAL

SEVENTEEN and one-half acres, one-half mile from station, joining townsite; 4 acres cleared and planted to apples, cherries and strawberries; 4 acres slashed; balance light clearing; house 26x26, with lean-to 14x30, 6 rooms, verandah 3 sides; fine water and best view in Salmon Arm; good sandy loam; This property will be in the townsite in the next two years, selling at \$700 to \$800 per acre. S. GRAY

wishes to announce that the Photographic Studio now being fitted up in the Rowcliffe Block will be open on or about May 1. THE LATEST STYLES OF MOUNTS AND FOLDERS WILL BE SHOWN.

WISS "Stielweld" Shears

The exclusive Wiss "Stielweld" process insures a cutting edge that will stay sharp forever, and also a frame proof against breakage. WHY take all this trouble to make a Wiss Shear blade, when it is possible to make a casting of iron, "convert" it into so-called "steel," give it a coat of enamel or nickel and have it look almost like a genuine Wiss "Stielweld"?

BECAUSE we make Shears not alone for looks, but for perfect and lasting cutting power.

Wiss Shears are adjusted to a hair's breadth. They cut evenly from heel to point of blade, and never pinch or chew the cloth, even after a lifetime of constant use.

All shears stamped "Wiss" are guaranteed to give you satisfaction. If for any reason they should fail, we will exchange them. We have a full line on hand. Let us show you some samples—also our large variety of high-grade cutlery, razors, pocket knives, table cutlery, etc. An unusual opportunity to obtain the best at reasonable prices.

Prior to commencement of firing several heavy showers fell of steady rain, but fortunately it cleared off while shooting was in progress. The light was trying, due to alternate cloud and brightness, and at the longer ranges the wind sprang up and bothered the marksmen somewhat.

There was a good attendance of members, and interest was taken in the performance of two new pattern Ross rifles, which did well enough, considering they were in the hands of men ranked only as second class shots, to sustain in a measure the reputation gained by the same model at Bisley last year. It is understood several other members have ordered rifles for their own use, and there should be enough Lee-Enfield and Ross match rifles to equip a team for the Vernon meeting.

For the first practice of the season, the scores were encouraging, and if interest is sustained, the Kelowna Association should turn out some good shots by fall. The detailed scores were—

THE WORLD OF SPORT

John D. Marsh, of Winnipeg, won the Canadian Marathon at Hamilton's Island, Toronto, in the good time of 2:39.47, which is more than a minute better than St. Yves' time in the last New York Marathon.

A four-oar shell race between crews representing the University of Washington, the James Bay Rowing Club of Victoria, and the Vancouver Rowing Club, will take place on Lake Washington, Seattle, on May 29, the day of the big inter-collegiate boat race between Washington, California and Stanford.

Alfred Shrubbs, the veteran English distance runner, scored over Tom Longboat in their fifteen mile race at Montreal on the afternoon of May 8, beating the Indian by a lap all but twenty yards, after an exciting struggle. The Indian gave the Englishman an argument all the way. Shrubbs' time for the fifteen miles was 1:27.57, and Longboat covered the distance in 1:28.46.

British riflemen in the international small-bore match held at Washington, D.C., last week, demonstrated their superiority over the Americans by scoring an overwhelming victory. The match was a friendly one in gallery ranges in the respective countries. The British made the grand total of 14,583 points out of a possible 15,000, or an average of 291 per man. The scores of the American team were 14,170. The high score man of the American team made 298 points out of a possible 300.

Great Damage by Bush Fires

Hundreds of thousands of dollars in property destroyed, and scores of ranchers forced to flee for their lives and leave their buildings and contents to the devouring element, are the results of disastrous bush fires that swept the country from North Hill, through the thriving settlement of Salmon Arm and on to Sicamous, and from four miles to the north of Enderby to Mara and as far east as Three Valley.

Amongst the losses are three sawmills together with stocks of seasoned lumber and winter cuts of logs, all of which were consumed by the wall of flame that swept over the country.

The mill of the Columbia River Lumber Co. at Carlin Siding was wiped out, with a loss of \$75,000; the Kenanaham mill on the Salmon River near Salmon Arm, valued at \$35,000; and the mill of the Rothery Lumber Co. at Mara.

In the vicinity of Salmon Arm three large bush fires had been burning for several days, and a terrific gale which started on Sunday night last week, and continued with unabated fury all day Monday, soon brought them into contact with one another. Barns and houses fell a prey to the fire and many head of cattle were lost, while many settlers had to leave everything and hasten to save their lives.

Near the town of Salmon Arm a fierce fire raged, and Brayden & Johnston's large sawmill had a narrow escape, but their staff of men with the assistance of the mill pumping plant, succeeded in saving everything. Four barns were razed to the ground in the vicinity of the mill, together with considerable hay and feed and implements. Several miles of fences were destroyed. The townspeople turned out in force and succeeded in keeping the fire from entering town, and although at one time it looked as if part of it would be wiped out, not a single building caught.

There is quite a big settlement in the neighbourhood of the Brayden & Johnston mill, with a number of fine residences, and that none of these were destroyed is a matter of thankfulness.

In the northern part of the Okanagan the fire started about four miles north of Enderby, and spread north past Mara on toward the P. R. main line, and running with incredible rapidity, within six hours nearly fifteen miles both sides of the Shuswap River were in flames and impassable, the fire jumping the stream no less than eight times. Every ranch within a mile of the river suffered some loss, many being wiped out entirely.

The loss occasioned by this conflagration includes ten residences, practically every barn, shed and outbuilding in the burned area, as well as many miles of fencing.

A schoolmaster was one day greatly annoyed by not getting satisfactory answers to the questions he put to one of the schoolboys. At last he called the dunce to the front and, handing him some money, said, "Away with you, go and buy some brains."

The master felt rather small when the boy turned round with the query, "And will I tell the storekeeper they're for you?"

R. T. HESELWOOD

Agent for the Albany Nurseries, Inc., Albany, Oregon.

NEWS OF THE OLD COUNTRY

The Institution of Civil Engineers, London, has conferred its first gold medal on the Wright Brothers, of airship fame.

A despatch to the London Daily Mail from Calcutta asserts that the British Government is seriously considering the question of placing the Viceroyalty of India in the hands of a Prince of the Blood Royal, and the suggestion is made that one of the younger sons of the Prince of Wales be trained for the post.

It is understood in London that the Imperial Government has despatched telegrams to the Overseas governments for a subsidiary conference on imperial defence early in July. The Canadian resolution and Australian and New Zealand offers will naturally form the basis of the discussion, but it is not intended to propose a definite programme. The proceedings will probably be in private.

Once again has Joe Martin met a political defeat, for on May 5 the Unionists won the Stratford-on-Avon bye-election. Mr. P. S. Foster polled 5374 votes, Mr. Joseph Martin, Liberal, 2747; while Capt. Kincaid Smith, Independent Liberal and former member, polled 476.

The result of this bye-election must be taken as an indication of the feeling of the country towards the present government, as the contest was fought out mainly on the two questions of tariff reform and naval problems.

The Cunard Steamship Company's report has been issued. The accounts show that the profits for the year, including £109,882 brought forward from 1907, amount to £295,036 15s. 5d. After debiting income tax, interest, depreciation of ships and wharves, and transferring £6,494 17s. 6d. to the insurance fund, there remains a balance of £3,582 6s. 8d., which the company carry forward to credit of profit and loss account for 1909. This is in direct contrast to the enormous losses sustained by the big German steamship lines.

Hitherto backward in the science of aviation, Great Britain is planning to undertake on a large scale the study of aeronautics. The Isle of Sheppey, Kent, in view of its advantageous location, has been named as the ground for the experiments which the English Aero Club is about to start, and already shops have been constructed and workmen are busy putting together machines that are on the ground. The English War Office is building shops for the construction of experimental ships on Salisbury Plain, and a Royal Engineer will witness the trials at Sheppey. It is stated that if the Sheppey experiments terminate successfully, orders for 300 aeroplanes from the British Government and from private individuals will be forthcoming.

Salmon Arm Investments SPECIAL

SEVENTEEN and one-half acres, one-half mile from station, joining townsite; 4 acres cleared and planted to apples, cherries and strawberries; 4 acres slashed; balance light clearing; house 26x26, with lean-to 14x30, 6 rooms, verandah 3 sides; fine water and best view in Salmon Arm; good sandy loam; This property will be in the townsite in the next two years, selling at \$700 to \$800 per acre. Price, for thirty days, \$7,000; terms to arrange.

wishes to announce that the Photographic Studio now being fitted up in the Rowcliffe Block will be open on or about May 1. THE LATEST STYLES OF MOUNTS AND FOLDERS WILL BE SHOWN.

WISS
"Stielweld" Shears

The exclusive Wiss "Stielweld" process insures a cutting edge that will stay sharp forever, and also a frame against breakage. WHY take all this trouble to make a Wiss Shear blade, when it is possible to make a casting of iron, "convert" it into so-called "steel," give it a coat of enamel or nickel and have it look almost like a genuine Wiss "Stielweld"?

BECAUSE we make Shears not alone for looks, but for perfect and lasting cutting power.

Wiss Shears are adjusted to a hair's breadth. They cut evenly from heel to point of blade, and never pinch or chew the cloth, even after a lifetime of constant use.

All shears stamped "Wiss" are guaranteed to give you satisfaction. If for any reason they should fail, we will exchange them. We have a full line on hand. Let us show you some samples—also our large variety of high-grade cutlery, razors, pocket knives, table cutlery, etc. An unusual opportunity to obtain the best at reasonable prices.

CITY COUNCIL

Considers This Year's Estimates

Continued from page 1

There was some difference of opinion on the site, the Mayor and Ald. Cox being in favour of Water St., off the main street, where they thought the trough would be in the way, but no decision was arrived at.

The Mayor reported that he had employed Mr. C. Harvey to make a survey of the A. & T. grounds to find out what amount of land it would be necessary to exchange with Croyley & Co., owing to the changes in streets, and he had ascertained that no further purchase of land would be necessitated other than that comprised in the exchange.

Regarding the sidewalk broken in moving part of Mr. Raymer's old building to a temporary site near the Bank of Montreal, the City Clerk was instructed to write Mr. Raymer requesting him to repair the damage, also to submit plans of his new building not later than May 24th.

The estimates were then taken up and discussed, the first to be dealt with being the electric light, which showed an estimated loss on operating account for the summer months of May, June, July, August and September of \$1,000. \$1,000 will have to be provided for expenditure on machinery over and above the amount borrowed and \$800 for new metres.

Discussing the summer loss on operation, Ald. Ball said the profits during the winter should much more than recoup the loss, and it need be looked on as merely a temporary deficit.

The fire and water estimates caused considerable discussion, several of the aldermen being in favour of striking out the appropriation for new fire hose, while Ald. Elliott, as chairman of the committee, stoutly resisted and said that the Chief of the Fire Brigade had asked for 800 feet, but the amount had been cut in the estimates to 500 feet, below which he did not feel inclined to accept any reduction. Finally, on Ald. Ball pointing out that a length of 400 feet would be just as useful as one of 500 feet, owing to the number of hydrants available, Ald. Elliott accepted a reduction to the former figure, but got in an effective "dig" at the economical tendencies of his colleagues by saying they could strike out of the Board of Works estimates the \$300 provided for that part of the City south of Mill Creek.

For sprinkling streets \$200 was allowed, being at the rate of \$40 per month for five months.

The Light Committee's estimates were laid on the table for a week or two.

The estimates of the Board of Works were gone over item by item and adopted with little change, the appropriation of \$15 for Gertrude Av. being cut out, as the street is little used, and \$150 being added for work on Smith Av., a street forming an approach to the new C. P. R. freight station.

Ald. Cox complained of the bad condition of the sidewalk on Ethel St., on which he resides, stating that on several occasions he had freed children who were caught by the feet between the planks, and that it was not safe to walk on after dark. He gave notice that he would hold the City liable for any accident that might happen to any of his family.

It was pointed out that the City was not building any more sidewalks, and that it was open to Ald. Cox to have a new walk built on the local improvement plan, and meantime, that if the condition of the walk was such as to expose the City to the danger of damage suits, the corporation would have a perfect right to pull it up.

Ald. Cox did not have the health estimates quite ready, but said the chief item would be \$125 per month for the scavenger.

Ald. Ball, on behalf of the Finance Committee, suggested it was proper to charge a portion of the cost of the City's clerical work to electric light and water operating account, and to credit the lighting department with a charge for the are lamps; and these book-keeping changes will accordingly be made.

The City Clerk was instructed to have debentures printed for the A. & T. grounds purchase, as soon as the necessary deeds shall have been signed.

Council adjourned at 10.30 p.m., to meet on Monday next.

Peach Crop Satisfactory

Mr. R. T. Heselwood, of Kelowna, who has been travelling through the valley examining orchards in Kelowna, Peachland, Summerland and Penticton, assured a member of the Review staff that the peach crop is going to be very satisfactory, and that the trees which have suffered to any extent during the winter frost, are those which were filled with an early supply of sap, which exhausted the roots, the average number affected being only from 3 to 5 per cent.—Summerland Review.

CARD OF THANKS.

Mr. S. Lister wishes to thank all those who have so kindly contributed, through the medium of Messrs. C. A. Marshall and H. C. Childers, towards his artificial limbs. The kindness of the people of Kelowna has long since been conveyed to his home in the Old Country.

Does Mrs. P.'s husband command a good salary?
He earns a good salary, but she commands it.

MOTOR CARS

On Our Country Roads

Kelowna, B.C.,

May 10, 1909.

The Editor, Kelowna Courier.

Dear Sir—

When we came to this beautiful but remote valley, many of us hoped that now, surely, we would be for ever out of reach of that bugbear of our existence—the motor car. We believed that the narrow roads, or lanes as we may more properly term them, would be considered unsuitable and unsafe for vehicles of that type, and that we would always be able to make our weekly or semi-weekly trips to town either on pleasure or on business bent, nothing daring to make us afraid. But, alas! our hopes have been dispelled, the motor cars are with us, and it is said there will soon be more of them.

No longer on one of these beautiful spring days can the hard working farmer's wife jump into her buggy with lightsome heart and drive to town, admiring on the way the beautiful orchards already gay with the promise of a bountiful harvest. Now, alas! if she does travel, her thoughts are concentrated on the next bend of the road and the evil smelling and noisy car which may suddenly appear and mean disaster to herself and her rig. Compelled thus to stay more at home, or else travel on foot, we are beginning to think that the only remedy we can see is to do a larger share of our shopping at home, through the catalogue of the mail order house.

In voicing our woes through the medium of your columns we do not wish to appear selfish. We are perfectly aware that the city gentlemen who own these cars have just as much right to the use of the roads as we have, and that the sole right to travel on them is no prerogative of ours; but could some arrangement or compromise not be made, at least for a time? Such as—for motor cars to keep inside the city limits where the roads are wider, say on Saturdays, on which day as a rule many of the country people take a trip to town.

Possibly, through time, our horses will get used to the cars, and if not we feel confident that in a year or two, when the flying machine is a safer and less expensive mode of locomotion than it is at present, that our city friends will have chivalry enough to trade off their terrestrial cars for something in the way of an aeroplane, an aerodrome or a dirigible, and leave the little narrow country lanes for us humble farmers' wives and our old-time buggies.

In conclusion, with apologies to Kipling, I would remark about the present Kelowna type of motor car, that—

It is little, but, for "noise" it's a terror for its size.

Yours truly,

A FARMER'S WIFE

NOTICE TO VISITORS To Engine-Rooms

A correspondent sends us the following notice to visitors to engine-rooms, "writ sarkastik" by an old engineer and published in a Tennessee daily. It contains more truth than poetry for those that have eyes to see.

1. When you enter the engine-room spit on the floor. We have water, lye, soap, mops and brushes, and we will clean up as soon as you leave.

2. Put your hands on all polished work. It will give some one work and use the surplus polish.

3. Put your hands on the engine's bright work. You will then know if it is smooth, hot or cold. Tell the others to do the same.

4. Stay in the engine-room as long as you please. The engineer has nothing to do but entertain visitors.

5. Be sure to tell the engineer if his engine is pounding or running right, as he will not know it unless you do. He will stop and make repairs while you wait.

6. Don't tell the engineer who you are. He is a mind reader and always knows you. Go anywhere in the engine-room and you will please him.

7. Advise him what to do, as you know best. The engineer is there only every day, and does not have a chance to see as much as you will in an hour.

8. If the engineer is busy making repairs, tell him a good story you heard the other day and, if possible, get in his way.

9. Be sure and tell all you know. It won't take long.

10. Call again and repeat as above.

Irrigation System Complete

The irrigation system of the Central Okanagan Land & Orchard Co. in Mission Valley is now complete, irrigating between 2,000 and 4,000 acres. Next to the Grey Canal in White Valley, it is probably the most extensive system at present in the Okanagan, counting the mileage of its main supply canal, twelve miles from reservoir to ditch head, and the great length of its main distribution canals and laterals. It is hoped to extend the system before next year to the Dry Valley properties of the Company, the water being carried across Mission Valley by an inverted siphon. The sub-division of Dry Valley will mean the settlement of a large area of choice land close to town, and the property will doubtless be in much demand.

VERNON-MISSION ROAD

Its Proper Width

Public Works Dept.,

Vernon, B.C.,

May 11, 1909.

Editor of the Kelowna Courier.

Sir—

For the information of owners of property adjacent to the Vernon-Mission Road, who are carrying on or who intend to commence fencing operations, it is desirable to give prominence to the fact that the said road has a width of sixty-six feet.

Thanking you for the courtesy of publication,

Yours obediently,

HAMILTON LANG,

Superintendent.

An Old-timer Passes

One of the older generation of settlers passed to his rest on Saturday afternoon in the hospital, in the person of Mr. William Wilson, for twelve years a resident in the vicinity of Long Lake, where he took up a pre-emption about the year 1897.

During the bitterly cold weather of the first week in January last Mr. Wilson had the misfortune to have his feet frozen, but treated the matter as not serious. Confinement to bed, however, brought on other complications, and it was necessary to move him to the hospital, where he gradually sank and died, death being ultimately due to exhaustion of vitality from bed-sores.

The deceased was a native of Dumfries, Scotland, and was about 60 years of age. He is survived by a widow, but leaves no children. The remains were taken to the Presbyterian church on Sunday, and the funeral was held to the Cemetery on Monday. The Rev. A. W. K. Herdman held service in the church at 2 p.m., and was assisted at the grave by the Rev. Thos. Greene, Church of England. The pall-bearers were all old-timers, Messrs. E. Weddell, D. W. Sutherland, D. Lloyd-Jones, T. Lawson, W. Swallow and W. Haug.

Here are a couple of Irish bulls. A son of Erin, seeing a very tiny coffin, exclaimed—

Is it possible that that coffin was intended for any living creature?

An Irish judge thus addressed a prisoner—

You are to be hanged, and I hope it will prove a warning to you.

CERTIFICATE OF THE REGISTRATION OF AN EXTRA-PROVINCIAL COMPANY.

"Companies' Act, 1897."

I HEREBY CERTIFY that the "Belgo-Canadian Fruit Lands Company" (Kelowna, British Columbia, Canada) an Extra-Provincial Company, has this day been registered as a company under the "Companies' Act, 1897," to carry out or effect all or any of the objects of the Company to which the legislative authority of the Legislature of British Columbia extends, except the construction and working of railways.

The head office of the Company is situate at Antwerp, Belgium.

The amount of the capital of the Company is one million five hundred thousand francs (\$300,000.00), divided into three thousand shares of five hundred francs each.

The head office of the Company in this Province is situate at Kelowna, and Thomas Willing Stirling, fruit grower, whose address is Kelowna, aforesaid, is the attorney for the Company.

The Company is limited. Given under my hand and seal of office at Victoria, Province of British Columbia, this 20th day of April, one thousand nine hundred and nine.

S. Y. WOOLTON,
Registrar of Joint Stock Companies
The objects for which this Company has been established and registered are—

All commercial, industrial, mining, agricultural and land operations in connection with lands or other real estate situate in British Columbia and in Canada in general; also all that directly or indirectly pertains to such or which could prepare, facilitate, support or develop the objects of the Company, including particularly: The purchase and rent of real estate of any nature whatever, the improvement of said real estate, the re-selling of same, either in blocks or lots, for cash or on terms per annuities or otherwise, its exchange or lease, and in a general way all enterprises having for object to build or improve real estate; the manufacture and commerce of all products of the soil, the distribution and sale of water and light, the operation of all industries, the purchase, the sale and transformation of all agricultural products, the enterprise, or the participation in all enterprises of railroad or tramways, and of all improvements of the soil of the lands belonging to the Company or to other parties by means of irrigation, drainage, dyking, drying and all other means whose success might contribute to the performance of the Company's objects such as have been set forth hereabove in a way which, however, is not limited.

The Company may participate to the organization or to the work of all companies having objects similar to theirs, either by subscribing a portion of the capital or bringing in some assets, or in any other manner. The Company may establish all stores or interest themselves in any enterprises having a similar object.

both cases.

Mr. Donald Fraser has sold a re-
sidence on Bernard Ave. to Mr. J.
E. Wheeler, of the Royal Hotel, and
a residence on Glenn Ave. to Mr.
John Leathley.

Mr. C. A. Stoess, C.E., came up
from the lower country on Tues-
day and spent the day in town on
professional business, leaving the
next morning for Victoria.

We beg to acknowledge with
thanks receipt of donations of \$5
from Mr. John D. Smith and \$2.50
from Mr. J. Monckton Case, both
of Okanagan Mission, for the Lister
Fund.

Mr. W. Irvine and Miss B. Stott
went to Vernon yesterday, where
they were married, and then con-
tinued their journey to the Coast,
where they intend to reside in the
future.

The Secretary of the Kelowna
Hospital begs to acknowledge with
thanks receipt of a donation of \$5
from Mr. John Dilworth, and \$2
from Mr. Alfred Hammore for the
Lister fund.

A meeting of the Kelowna Crick-
et Club will be held in Mr. Parkin-
son's office, Keller Block, on Sat-
urday, May 15th, at 8 p.m. All per-
sons interested are requested to at-
tend.—Con.

Mr. F. R. E. DeHart has received
yet another diploma from the In-
ternational Apple Show at Spokane,
the award being for "honorable
mention" (second prize), for best
district display of fruit.

Mr. C. B. Daniel, manager of the
local branch of the Royal Bank,
left on Saturday for Regina to take
part in an important event, a brief
notice of which appears in another
paragraph. Congratulations!

Mr. Chas. Wylie, of Vernon, and
Mr. H. Arnold, of Nanaimo, spent
the latter end of last week and the
early part of this week at the home
of Mr. C. Martin. The two gentle-
men made the trip from the Land-
ing in a canoe.

Mr. and Mrs. J. H. Baillie, of Ok-
anagan Mission, returned on Fri-
day from a winter's visit to the
Old Country. Mr. Baillie reports ver-
y bad weather in London quite late
in the winter, with much snow and
cold weather, and he is glad to re-
turn to the Okanagan.

We are informed that the delay
in letting contracts for the new
school building is due to the case
with which the Trustees are investi-
gating the most modern plans of
heating and ventilating, as it is in-
tended that the school shall be thor-
oughly up-to-date. It is hoped, in
any case, to have the building ready
for occupancy by the fall term.

An important business change takes
place this week in town. Mr. W. A.
Hunter, who has successfully carried
on a grocery and baking business
on Bernard Ave. for a number of
years, having disposed of it to a
new firm to be known as Biggin &
Poole. Mr. Biggin is well and fa-
vorably known as manager of the
grocery department of T. Lawson
Ltd., and Mr. Poole is a baker and
confectioner of wide experience, due
to arrive this week from the Coast.
With the large business already es-
tablished, the new firm has a good
foundation to work upon, but they
will extend it in various directions
and they hope to secure a large
share of the grocery and confection-
ery business of the town and val-
ley. Mr. Hunter will be connected
with his successors for a time, but
intends eventually to remove to the
Coast in order to obtain for his
family certain educational opportu-
nities not available in a high school.

A false alarm was sounded by the
power house whistle on Friday eve-
ning to test the speed with which
the Fire Brigade boys could turn
out, and they made a very credita-
ble display, getting the reel out in
little more time than at regular
practice. The engine was taken out
on Tuesday evening, hauled by a
team, with the boys running be-
hind with the reel, and they made
a fine dash up Bernard Ave. to the
Presbyterian Church and back a-
gain. The engine was strictly on
its good behaviour and did excellent
work. The boys are keen and en-
ergetic, and the town now real-
ly has some fire protection worthy
of the name, a fact which we hope
the Council will recognize and will
eschew the niggardly policy pursu-
ed by its various predecessors,
which was effective in killing the
best meant efforts to keep the Bri-
gade in existence, as a permanent
institution.

CITY OF KELOWNA By-law No 60

BEING a By-Law to carry out a
certain agreement hereinafter set
out.

WHEREAS, Thomas W. Stirling,
Benjamin DeFurlong Boyce, the Cor-
poration of the City of Kelowna
and the Canadian Pacific Railway
Company have entered into an agree-
ment in the words and figures
following:—

THIS AGREEMENT made in tripli-
cate this 27th day of April, One
thousand nine hundred and nine.

BETWEEN
THOMAS WILLING STIRLING &
BENJAMIN DEFURLONG BOYCE,
both of the City of Kelowna, in the
Province of British Columbia, here-
inafter called the "parties of the
first part."

OF THE FIRST PART
THE CITY OF KELOWNA, here-
inafter called the "City"

OF THE SECOND PART,
AND
THE CANADIAN PACIFIC RAIL-
WAY COMPANY, hereinafter called
the "Railway Company"

OF THE THIRD PART

WHEREAS the Railway Company
purposes to construct a wharf or
wharves with warehouses and other
buildings and works in connection
with its steamboat and rail traffic
on the shore of Okanagan Lake and
in the City of Kelowna aforesaid;

AND WHEREAS in order to en-
able the Railway Company to con-
struct the said work the parties of
the first part and the City have
agreed to convey or to cause to be
conveyed to the Railway Company
certain lands and premises hereinafter
more particularly described;

NOW THIS AGREEMENT WITNESS-
ETH:

1—The parties of the first part
will convey or cause to be convey-
ed to the Railway Company all their
right, title and interest in and to
those portions of land (including all
their rights and interest whatsoever
in and to the foreshore and land
under water adjacent to the said
lands) situate, lying and being in
the City of Kelowna aforesaid which
may be more particularly described
as—

FIRSTLY—Commencing at the
point of intersection of the west
boundary of Ellis Street and the
north boundary of Smith Avenue;
thence following the said north
boundary of Smith Avenue westerly
a distance of seven hundred and
thirty-two (732) feet to the true
point of commencement; thence nor-
therly and parallel to the east bound-
ary of Water Street three hundred
(300) feet; thence westerly and at
right angles to the last described
boundary to the shore line of Ok-
anagan Lake; thence southerly
along the said shore line to the
point of intersection of the
said shore line with the
westerly production of the northerly
boundary of Smith Avenue; thence
easterly along the said westerly
production of the northerly bound-
ary of Smith Avenue to the true
point of commencement as shown
coloured red on the plan hereto at-
tached and thereon denoted and
hereinafter referred to as "Parcel
A."

SECONDLY—Commencing at the
point of intersection of the said west
boundary of Ellis Street and the
north boundary of Smith Avenue;
thence following the said north
boundary of Smith Avenue westerly
a distance of six hundred and six-
ty-six (666) feet to the true point
of commencement; thence northerly
at right angles to the said northerly
boundary of Smith Avenue and
parallel to and always distant easterly
sixty-six (66) feet from the
easterly boundary of Parcel A for
a distance of one hundred and twenty
feet; thence easterly and at right
angles to the last described bound-
ary sixty-six (66) feet; thence sou-
therly and at right angles to the
last described boundary one hun-
dred and twenty (120) feet to the
said northerly boundary of Smith
Avenue; thence westerly along the
said northerly boundary of Smith
Avenue sixty-six (66) feet more or
less to the point of commencement
as shown coloured red on the plan
hereto attached and thereon describ-
ed and hereinafter referred to as
"Parcel B."

2—The parties of the first part
shall convey or cause to be convey-
ed to the City of Kelowna for the
purpose of a public highway or
street so much land as may be re-
quired to enable them to continue
Water Street in a straight line
running due north and south from
its intersection with Bernard Ave-
ue to Cavston Avenue as shown at-
tached and thereon denoted "pro-
posed street."

3—The City shall forthwith take
the necessary legal steps to close
that portion of Water Street that
lies north of the northerly bound-
ary of Smith Avenue for three
hundred (300) feet (and the parties
of the first part as owners of the
land immediately adjacent to that
portion of Water Street, hereby con-
sent to the closing of the said por-
tion of the said street); and shall

A Hospital Bazaar will be held in
Raymer's old hall on Wednesday, the
19th inst., both afternoon and even-
ing. Part of the proceeds will be
devoted to payment of the debt on
the Hospital basement. There will
be a large assortment of beauti-
ful goods on sale, imported from
Great Britain and India, as well as
from the Coast cities of B. C. Chil-
dren's summer clothes a specialty.
There will be a fish pond for the
children. Contributions should be
sent to Mrs. Boyce, Mrs. F. A. Tay-
lor or Mrs. T. W. Stirling, not later
than the 18th.

The RACYCLE

The World's Best Bicycle
Buy a Racycle and you will ride in comfort and get value
for your money. Write to-day for prices and particulars.

W. R. MEGAW DEPARTMENTAL STORES VERNON, B.C.

Three Lake Shore Lots

for sale in Parkdale, Marty Bros.' sub-
division, on very easy terms.

BANKHEAD

You can buy a lot 59x181, with five-year-old trees,
in first-class shape, in the first block, for \$600.
\$200 cash, balance in one and two years. This is
a profitable investment and a pleasant place to live.

Hewetson & Mantle

therein convey or cause to be con-
veyed to the Railway Company so
much of that portion of Water
Street aforesaid which lies in "Parcel
A."

4—So soon as the Railway Com-
pany is ready to commence its pro-
posed works the parties of the
first part and the City shall give
the Railway Company possession of
Parcels "A" and "B."

5—The necessary title deeds for
assuring to the Railway Company
Parcels "A" and "B" in fee simple
shall be prepared by the Railway
Company, who shall also pay the
cost of all necessary surveys for
that purpose.

6—The City shall, forthwith, have
prepared and submit to the vote of
the ratepayers and property own-
ers of the City of Kelowna a By-
Law enabling the City to carry
out the terms of this agreement.
Provided, however, and it is hereby
agreed between the parties
hereto that in the event of the
ratepayers and property owners
of the City of Kelowna failing to
cast a sufficient number of votes
to carry the By-Law to be sub-
mitted to carry into effect this
agreement, then this agreement shall
be null and void and of no effect,
so far as the City is concerned.

7—The parties of the first part
and the City hereby consent to the
application of the Railway Company
to the Government of the Province
of British Columbia for a lease of
the land under water opposite and
immediately adjacent to "Parcel A"
in accordance with the Railway
Company's notice of intention to ap-
ply for lease, posted on said land
and dated the twentieth day of Ap-
ril, 1909.

8—The Railway Company hereby
covenants and agrees with the par-
ties of the first part and the City
that in consideration of the prem-
ises it shall erect and maintain the
necessary carrieps, apron, tracks
and other structures to enable it to
load and unload its cars on Parcels
"A" and "B" and on any extensions
to the Railway Company's tracks
at Kelowna which may be construc-
ed hereafter. The above mention-
ed works shall be commenced within
thirty (30) days from the date of
the final reconsideration of the By-
Law herein before referred to and
shall be completed within six mon-
ths of said date.

9—This Agreement shall ensure to
the benefit of and become binding
upon the successors and assigns of
the City and the Railway Company,
and the heirs, executors, adminis-
trators and assigns of the parties
of the first part.

IN WITNESS WHEREOF the par-
ties hereto have executed these pre-
sents the day and year first above
written.

AND WHEREAS, in order to car-
ry out the said agreement it is ex-
pedient to pass this By-Law—

BE IT THEREFORE ENACTED by
the Mayor and Council of the City
of Kelowna in open meeting as-
sembled as follows:—

1—That the Corporation of the
City of Kelowna do convey and
transfer to the Canadian Pacific
Railway Company all its interest in
that part of Water Street, as shown
on a map or plan of the townsite
of Kelowna now on re-
cord in the Land Registry office at
Kamloops, British Columbia, as plan
number Four Hundred and Sixty-
Two (462) described as follows:—
Commencing at the point of in-
tersection of the west boundary of
Ellis Street and the north bound-
ary of Smith Avenue; thence fol-
lowing the said north boundary of
Smith Avenue westerly a distance
of Seven Hundred and Thirty-Two
(732) feet to the true point of com-
mencement; thence northerly and
parallel to the east boundary of
Water Street Three Hundred (300)
feet; thence westerly and at right
angles to the last described bound-
ary to the shore line of Okanagan
Lake; thence southerly along the
said shore line to the point of inter-
section of the said shore line with
the westerly production of the nor-
therly boundary of Smith Avenue;
thence easterly along the said westerly
production of the northerly bound-
ary of Smith Avenue to the true
point of commencement as shown
coloured red on the plan hereto at-
tached and thereon denoted and
hereinafter referred to as "Parcel
A."

TAKE NOTICE that the above is
a true copy of the proposed By-Law
upon which the vote of the Muni-
cipality will be taken at the Clerk's
office, in Kelowna, on Monday, May
17th, 1909, between the hours of
9 a.m. and 7 p.m.

G. H. DUNN,
City Clerk.

NEWS OF THE PROVINCE

Two men were killed and two injured on May 7 in a dynamite explosion in the big tunnel at Field.

The grand jury found no true bill against Lord Sholto Douglas, at the Nelson assizes, charged with attempted murder.

Acting upon the declaration of Mr. G. H. Cowan, M.P., in a speech at Ottawa that he would resign under certain conditions, the Liberals of Vancouver have forwarded him an invitation to do so, accepting his challenge.

For the second time the jury that had been selected to try James Moore, the negro accused of killing Patrick O'Brien, last summer at New Westminster, failed to agree in their verdict at the trial last week at the Assizes, and have been discharged. A new jury will be chosen.

The dispute between the operators and employees of the coal mines controlled by the Western Coal Operators in Alberta and British Columbia, will be referred to a board of conciliation under the Lemieux Act. Judge Lampman has accepted the chairmanship of the conciliation board.

Despondent probably over unrequited love and failure in business, Walter Emil Henniger, a young German, who had been in Vancouver less than a year, committed suicide sometime during the night of May 7, by shooting himself in the right temple with a .32-calibre revolver.

Guy D. Mowles, generally known as Bob Ritchie, lightweight amateur boxer of North Vancouver, committed suicide on Wednesday last week by throwing himself over a cliff 200 feet high at Sunshine creek, on the north arm of Burrard Inlet. Deceased had been employed for some time as a motorman.

A notice appears in the last issue of the B. C. Gazette stating that persons desirous of giving evidence under the Public Enquiries Act in the matter of the Fruit & Produce Exchange of British Columbia, Ltd., can do so at the Parliament Buildings, Victoria, on any week day, holidays excepted, up to and including May 31, 1900.

A man named Frank O'Neil, working for the B. C. Electric Railway Company, was electrocuted on May 8 while engaged in installing a rotary converter for use on the Chilliwack line. It is supposed that the unfortunate man touched one of the high power wires, receiving a shock of some 20,000 volts. He leaves a wife and family residing in Vancouver.

The celebration of Arbor Day in Nelson was marred by two tragedies. The first took place just before noon when Wallace E. Milden, who had been working on some excavations in one of the city streets, was entombed by a caving-in of soil and killed. The second was the discovery of the corpse of James W. Cole, who, during an attack of temporary insanity, had shot himself.

The annual conference of the Methodist Church in this Province opened in New Westminster on May 9, and will continue for ten days. This year's meeting promises to witness the most important gathering of Methodists that has ever been held in British Columbia. The conference this year will mark the fiftieth anniversary of the founding of the Methodist church on the Pacific coast of Canada.

The coming season will be a notable one in the history of the Alpine Club of Canada, for this summer will see the opening of the new clubhouse at Banff, which is now being built, while another event which will distinguish this year's activities will be the visit of the British alpinists who are coming to Canada in connection with the meeting of the British Association, which will open in Winnipeg on August 25.

Why it Pays to Buy INVICTUS SHOES

It may cost you a little more to get really good shoes—INVICTUS SHOES—but it will pay you in the end.

Because you'll get a better fit, newer styles and very much better and longer wear.

In INVICTUS Shoes you'll get genuine oak tanned sole leather—a leather that is used only in high grade shoes.

The vamps and tops of these shoes are made of the finest selected leather money and experience can procure.

Every hide that goes into the INVICTUS Shoe Factory has to pass the inspection of an expert judge of leather.

No trouble or expense is spared to make INVICTUS Shoes the best it's possible to produce.

The Oak Hall Clothing Co.

The "House of Fashion"

NEWS OF THE DOMINION

A carload of lobsters were shipped on May 4 from Halifax to the Pacific coast, where they will be set out for propagating purposes.

Winnipeg, Man., May 6.—Col. Manchester, a veteran of the Mackenzie rebellion of 1837 in Upper Canada, died here to-day at the home of his son, Dr. Manchester.

The town of Elk Lake, near Cobalt, Ont., was visited by a disastrous fire on May 3, destroying the Hudson Bay Store, post office, Johnson Trading Co.'s stores and three hotels.

Stratford, Ont., May 6.—Frank Richmond was placed on trial at the spring assizes on a charge of the murder of Mrs. William Peake of the Township of Downie, last September.

An attempted monster Socialist parade last Saturday in Winnipeg was a dismal affair, as out of the several thousand reputed adherents only three hundred put in an appearance.

Stratford, Ont., May 7.—Aloysius Guerin, found guilty of manslaughter in connection with the death of Alec Sutherland of West Zorra, was sentenced to-day to five years in the penitentiary.

At the annual meeting in London, Eng., of the Colonial and Continental Church Society, it was stated that a hundred sums of \$250 and upwards had been contributed for churches in the Northwest.

Judge Daniel L. Hannington, of the Supreme Court of New Brunswick, died suddenly at his home in Dorchester on May 6. He was prominent in New Brunswick political life before his appointment to the bench.

The first double execution in the history of New Brunswick took place at Andover on May 4, when Tony Aroshe and Leon Sepper, two Italians, were executed for the murder of Paddy Green, a jewelry pedlar of Montreal.

Destructive prairie fires raged throughout the Regina district on May 5, doing considerable damage. Near Rush Lake the seven-year-old daughter of a farmer was burned to death, and his wife and two other children were badly burned.

Two hundred and fifty miners at the Beaver asbestos mines in Thedford, Que., are out of work as a result of the mine being closed, owing to the refusal of the men to work an extra half day to pay for the insurance on their lives, arranged by the owners.

The Montreal Board of Trade, at a meeting last week, adopted a resolution declaring for free trade within the Empire. The mover of the resolution pointed out that the Canadian West was being populated by a heterogeneous race, and that there was a strong tendency of the trade of Canada west of the Lakes to be diverted south into the United States.

W. L. Mackenzie King, who was the Canadian representative at the recent opium conference held at Shanghai, China, recently returned from his trip, during which he visited Japan, China and India. Regarding Japanese immigration, Mr. King said that there was no danger of a recurrence of the influx of two years ago, as Japan will prevent it.

Suit for Property

Three sisters and a brother, living in Ireland are seeking in the supreme court of British Columbia to recover property worth over \$100,000 in the vicinity of Penticton, to which they became entitled over two years ago, on the death of their brother, though they did not know that he was the owner of it until recently. They are Jane Smith, James Armstrong, Margaret Glen and Eliza Campbell, and the defendants to the action they bring are Thomas Ellis and the South Okanagan Land Co., against whom a declaration is asked by the plaintiffs that they are the owners of the land in question. Hugh Armstrong, a brother of the plaintiffs, was killed in the upper country in 1886, and he left lot 158, containing about 160 acres, in the Penticton district. This property upon his death passed through different hands into those of Mr. Ellis, who sold it to the land company two years ago. After the death of the brother, Hugh Armstrong, his brother James came up and took out letters of administration, but he claims now that he only administered the personal estate and was not aware that his brother possessed this land.

Placed Ties on Track

A case not of everyday occurrence was tried in Revelstoke in the Provincial police court, on May 7, when Stanley Kida, an Australian, was charged with placing two ties on the rails of the main line of the C. P. R. about one mile east of Clanwilliam. The accused was committed for trial. During his imprisonment Kida is alleged to have made a confession that he placed the obstructions, his object being to stop a train and steal a ride.

Old Lady, to new curate—Ah, sir, we do enjoy your sermons. They are so instructive. We never knew what sin was until you came to the parish.

THOMAS LAWSON, Ltd.

The KELOWNA AQUATIC ASSOC'N

Limited

Capital \$10,000

Divided into 400 Shares of \$25 Each

THE Association has been formed to promote and encourage all forms of water sports, and to provide proper summer bathing facilities for children, subscribers and the general public. Construction of a handsome two-storey pavilion will be commenced this month, on a site granted in the Park by the City under a lease for 20 years, and it is hoped to get the premises ready by the middle of summer.

Why You Should Subscribe

There are many reasons why you should subscribe, but it is sufficient to state three:

For Profit Because the Association will be run economically, and the rents from bathing booths, costumes, towels and other privileges should pay good dividends, after meeting all expenses.

For Pleasure Because your little ones under 15 can use the bathing accommodation absolutely free of charge, and there will be an experienced attendant—a good swimmer—to see that they come to no harm. You and the older members of your family can use the dressing rooms at a very moderate charge, or you can take out season tickets at reduced rates.

For Patriotism Because no other institution can better popularize Kelowna as a summer resort, and your generous assistance to make the town attractive will bring its own reward, as of the many dollars that summer visitors spend, a goodly share may flow into your pockets.

Shares Sold on Easy Payments

Viz: \$5 cash on application; balance on equal payments of \$5 each on 1st June, 1st August, 1st October and 1st December.

Subscription list now open. Apply to any of the following Provisional Directors, who have power to receive applications and payments and to give temporary receipts pending issue of shares:
